

Macadamia oil

INCI	Macadamia integrifolia seed oil
CAS	438545-25-6

SPECIFICATIONS

Aspect	Pale yellow clear oil
Odor	Slight characteristic odor

GENERAL INFORMATION

Macadamia integrifolia nut oil is obtained by pressing the seeds of the macadamia tree and subsequently refining it.

Macadamia is an evergreen plant native from Australia, whose oil is mainly composed of triglycerides, with the highest concentration of palmitoleic acid. This special feature makes it considered to be similar to skin lipids.

FORMULATION

Macadamia oil helps the skin stay elastic and moisturized for a long time and is widely used in therapeutic and relaxing massages.

As it promotes combability, it is also used as the basis of some shampoos or hair creams.

Macadamia integrifolia oil is very nourishing and effective against dehydration, which is why it finds excellent application in lip balms and creams, as well as in anti-stretch marks and anti-cellulite products.

It is also used to balance scalp sebum, regulating lipid secretion and moisture.

Because of its characteristics, macadamia oil is also often used in sunscreens, as it is very resistant to oxidation.

Macadamia oil can be recommended for nail strengthening treatment.

BENEFITS

- Smooths and rejuvenates dry, fragile and sensitive skin
- Ideal for dry, brittle hair care
- Improves moisturizing efficiency
- Non skin sensitizing or irritating
- Excellent sensory profile
- Excellent skin absorption & non-greasy touch
- Very resistant to oxidation (rich in Vitamin E)

APPLICATIONS

Natural extracts

Cosmetics

- Skin care: moisturizing body and face oil, body scrub, face cream, lip balm, anti-ageing face cream day
- Sun & After Sun care
- Scalp nourishing lotion
- Baby care line product
- Hair care creams & conditioner
- Make-up cleansing
- Nail care products

SHELF LIFE

24 months under proper storage conditions (tightly closed container in a cool, dry place, away from light and heat sources)

REGULATORY

ECOCERT/COSMOS Conform
