

ALMOND OIL

INCI Prunus Amygdalus Dulcis Oil

CAS 8007-69-0

SPECIFICATION

Aspect	oily liquid
Odor	characteristic
Color	pale yellow

GENERAL INFORMATION

Refined almond oil is obtained from the kernel of *Prunus amygdalus dulcis*. 100% of the ingredient is sweet almond oil, no additives or other ingredients are added.

FORMULATION

This oil may be applied directly to the skin and hair. Almond oil has long been known for its softening and smoothing effects on sensitive skins, such as baby and dry skins.

Almond oil has emollient and sclerosant properties and, therefore, has been used to improve complexion and skin tone.

Very smooth, it removes make up easily and is often used alone or as a base for massage oils.

Recommended dosage is between 3 to 10%.

APPLICATIONS

Pharmaceuticals
Natural extracts
Cosmetics

- Skin care
- Sun care
- Make-up
- Hair care
- Massage oils
- Toiletries
- Baby care

BENEFITS

- Produced from 100% renewable sources
- Excellent carrier in skin and hair care products
- Improve moisturizing efficiency
- Non skin sensitizing or irritating
- Excellent sensory profile

EFFICACY

Almond Oil is rich in vitamin E (natural anti-oxidant), vitamin A (production of new skin cells, educing wrinkles & stretch marks), minerals, monounsaturated fatty acids (healthy fats such as Omega 3 and 6), and helps skin appear radiant and healthy.
